

ASSET MANAGER APP

EASY PREP, SHIP AND RETURN WITH A SINGLE RFID SCAN, UPDATE BIN AND SHELF LOCATIONS AND MOVE ASSET FROM QC TO IN AND AVAILABLE STATUS

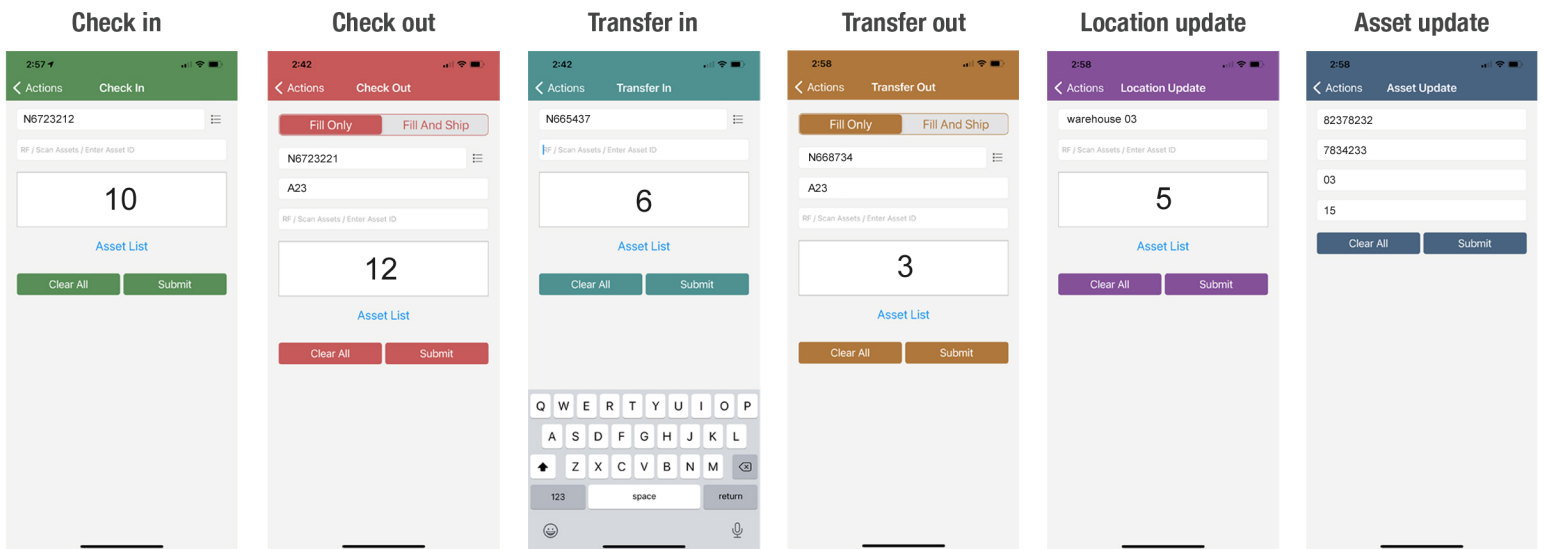

R2 Asset Manager mobile app for RFID integration

The Asset manager mobile app receives RFID lists scanned by the portal, handheld or ceiling mounted with a specific location/gate ID. The user selects the Order and Submits to process the batch. It is as easy as that!

Key Benefits

UBS will work with your RFID provider to integrate specific tag data stream with R2.

The data stream depends on your choice of tags and scanners and will require some customization to integrate with R2.
